7	<b>Balanced budget, no deficit reduction plan is required.</b>					
8	A deficit reduction plan is required if the local board of education adopts (or amends) the 2019-20 school district budget in which the "operating funds" listed above result in direct revenues (line 9) being less than direct expenditures (line 19) by an amount equal to or greater than one-third (1/3) of the ending fund balance (line 81).					
10	<b>Note:</b> The balance is determined using only the four funds listed above. That is, if the estimated ending fund balance is less than three times the deficit spending, the district must adopt and file with ISBE a deficit reduction plan to balance the shortfall within three years.					
12	The School Code, Section 17-1 (105 ILCS 5/17-1) - If the 2018-2019 Annual Financial Report (AFR) reflects a deficit as defined above (page 36), then the school district shall adopt and submit a deficit reduction plan (found here on page 20-24) to ISBE within 30 days after acceptance of the AFR.					
13	The deficit reduction plan, if required, is developed using ISBE guidelines and format.

*(For Local Use Only)*

***This is an estimated Limitation of Administrative Costs Worksheet only and will not be accepted for Official Submission of the Limitation of Administrative Costs Worksheet.***

*The worksheet is intended for use during the budgeting process to estimate the district's percent increase of FY2020 budgeted expenditures over FY2019 actual expenditures. Budget information is copied to this page. Insert the prior year estimated actual expenditures to compute the estimated percentage increase (decrease).*

*The official Limitation of Administrative Costs Worksheet is attached to the end of the Annual Financial Report (ISBE Form 50-35) and may be submitted in conjunction with that report.*

**Evidence-Based Funding (EBF) Spending Plan - OPTIONAL**

This portion of the budget template is **NOT REQUIRED** for approval or submission of the FY20 budget.

This portion of the budget template is designed to prompt thinking related to the upcoming

**EBF Spending Plan**, which must be submitted through MAS by September 20, 2019. The MAS system will open for plan submission in late summer 2020. Filing out this budget template tab **does NOT fulfill the requirement to submit an EBF Spending Plan through MAS**. This budget template tab will **NOT pre-populate into MAS** for official EBF Spending Plan submissions.

When school systems coordinate their resources in service of common goals grounded in vision and data, great things for students are possible. The EBF Spending Plan asks about your intended use of one major resource: money. Specifically, it focuses on your intended use of **your Evidence-Based Funding (EBF) dollars**, which are called "The Funding" or "Additional State Assistance" and your intended use of **EB dollars for specific student needs**. Money alone may not drive continuous improvement in a district or school; however, telling the story of where and why you choose to direct dollars is an important signal of what matters to your community.

FY20 is a refinement year in which **OSE** will actively seek feedback on the EBF Spending Plan and collaboratively refine it for FY21 and beyond. All school districts\* are required to complete a spending plan, but they will not be published publicly. **OSE** may report selected data in aggregate. Any individual school district\* may choose to share their data with their community. **OSE** districts may also refer to individual school district submissions\* when supporting districts.\* Feedback on Centers. Although the EBF Spending Plan refers explicitly to school districts, its content should be consistent as applying to the laboratory schools. Regional Offices of Education use **Interim Measures** to assess

\* EBF state statute requires that all "Organizational Units" complete an annual spending plan. "Organizational Units" includes not only school districts but also laboratory schools, Regional Offices of Education, and Intermediate Service Centers. Although the EBF Spending Plan refers explicitly to school districts, its content should be consistent as applying to the laboratory schools. Regional Offices of Education use **Interim Measures** to assess

\* Laboratory schools, Regional Offices of Education, and Intermediate Service Centers are included here in addition to "school districts." State-authorized charter schools are NOT included here.

**Part I - What effects on student outcomes do you anticipate as a result of your EBF investments and other focused efforts?**

Although money alone may not drive continuous improvement in a school district or a school, spending it intentionally and leading with clear goals can maximize its impact.

Question	Response	Notes

Increase number and/or quality of professional development opportunities		
Improve programs, curriculum, and/or learning tools		
Invest in facilities, maintenance, infrastructure, and operations		
Increase number and/or quality of community, parent, and family engagement opportunities		
Other (please list)		

Question	Response	Notes
2) Mark with an X the State Board of Education goals listed as of June 2019 on which your school district* intends to make progress in FY20		* School districts, laboratory schools, Regional Offices of Education, and Intermediate Service Centers

Question	Response	Notes
3) OPTIONAL - Further describe how your school district* will achieve student growth and OSE goals		* School districts, laboratory schools, Regional Offices of Education, and Intermediate Service Centers

**Part II - What will you do with your EBF Tier Funding? Why?**

EBF funding comes from the state in a series of disbursements. Most of the sum total of these disbursements is an allocation equal to what school districts\* received last year's EBF Base Funding Minimum (BFM). On top of the BFM and making up the other part of the sum total EBF disbursement, school districts\* also receive a new allocation, called EBF Tier Funding.

The EBF Spending Plan application in MAS will ask every school district\* to indicate on what categories the district\* intends to spend EBF BFM dollars and EBF Tier Funding. School districts\* will use 4) and 5) to report new selections for use of EBF Tier Funding. School districts\* will be able to verify or adjust their selections for 4) use of FY20 BFM dollars using their entries from last year. Finally, school districts\* will indicate the effect of increased funding on 5) total FY20 in the district\*.

The MAS application will be pre-populated with FY20 amounts for both EBF BFM and EBF Tier Funding for each individual school district\*. For this working document, school districts\* may look up their FY20 allocations at <http://www.ibe.net/locations/download.php?Source=639/Document/FY20-EBF-Quick-Facts-File>

9) Considering all funding sources, how many new FY20 does your school district* hope to fund for FY20? (This number may not be the same as actual new FY20 total for FY20)		* School districts, laboratory schools, Regional Offices of Education, and Intermediate Service Centers

**Part III - How will you support special student groups through all FY20 funds received (federal, state, and local), especially in relation to the EBF dollars designated for them?**

When a school district's EBF disbursement is calculated, certain funds are attributable specifically to the school district's populations of low-income students, English learners, and students with disabilities. All other EBF funds may be spent in any manner by the school district that pre-allocates these designated funds must be spent on programs and services specifically benefiting the specific student groups in question. Moreover, these funds should be layered on top of a general program of instruction benefiting all students. Beyond EBF funds, school districts may also receive dollars from federal, local, and other state funds to support both a general program of instruction and specific student groups. In determining where to invest those funds, OSBE expects that school districts' leaders will work in collaboration to review similar data and information on that which they considered for Part 8 of this EBF Spending Plan. School districts may wish to refer to other tabs in this budget template, their Consolidated District Plan, their EL - Bilingual Service Plan, or any other existing documentation laying out plans for use of federal, state, and/or local funds in order to holistically consider how these funds may work together to serve students.

- School districts, elementary schools, Regional Offices of Education, and Intermediate Service Centers

The EBF Spending Plan application in IMAS will list out the FY22 EBF funds specifically attributable to low-income students, English learners, and students with special needs for each individual school district. For this working document, school districts may look up their FY22 allocation (FY22 allocations are not yet available at this time) (view the school district's current FY22 Student Population Funding Allocation Spreadsheet). School districts will indicate in which positions, programs, and/or services they intend to invest using all funds (not solely EBF funds) in service of students. School districts may wish to use at least one English learner and also complete appropriate EL - Bilingual Service Plan.

- School districts, elementary schools, Regional Offices of Education, and Intermediate Service Centers

10) EBF state dollars requires that school districts use the EBF Spending Plan to specifically identify the intended utilization of funding on low-income students, English learners, and special education programs. EBF state dollars requires that these resources specifically identified should be "in addition to and not in lieu of" all other funding supporting students. The chart below provides a mechanism by which to distinguish between the funds spent on all students vs. these "additional" investments for the three identified student populations.

Mark with an X the positions, programs, and/or services on which the school district intends to spend FY22 dollars from all sources (including designated EBF funds) to benefit the whole student population through a general program of instruction. Then, fill in the appropriate dollar amounts that the school district intends to spend on its specific student groups, keeping in mind that these dollars are on top of the general program of instruction already indicated. If the school district does not have a specific student group, it does not need to fill out the column for that student group. School districts are not expected to have an entry for every row if not applicable.

This chart is not intended to serve as a strict accounting exercise. Instead, school districts are asked to apply the spirit of "additional investments" as they fill in the chart and consider how they can use the chart to communicate the difference between dollars spent on all students vs. on students with greater need for additional resources.

1. Effect size is the amount of standard deviation in the higher performance that the average practices or students compared to students who were not exposed to the strategy. An effect size of 0.2 would indicate that the average student's performance would move from the 50th to the 57th percentile. The research tool generally recognizes effect sizes greater than 0.25 as significant and greater than 0.50 as substantial. It is important to note that strategies must be implemented in accordance with research-based assumptions in order to present a valid effect size. EBF research base indicates that providing learning with Tier 2 intervention teachers, one-on-one and small group, has an effect size of 0.4-0.5 for student performance. EBF research base indicates that providing professional development with classroom instructional coaches has an effect size of 1.25-1.7 for student performance.

As quoted in (2016) Illinois evidence based learning for student success (Illinois EBP) Research summary conducted by Corbett, A. R., Piatek, L. C., Conroy, M., Dargatzis, M. T., & Farnsworth, M. (2016). An evidence based approach to the research tool generally recognizes effect sizes greater than 0.25 as significant and greater than 0.50 as substantial. It is important to note that strategies must be implemented in accordance with research-based assumptions in order to present a valid effect size. EBF research base indicates that providing learning with Tier 2 intervention teachers, one-on-one and small group, has an effect size of 0.4-0.5 for student performance. EBF research base indicates that providing professional development with classroom instructional coaches has an effect size of 1.25-1.7 for student performance.

EBF research base indicates that providing classes sizes of 15 or in grade K-3 has an effect size of 0.25 for overall student performance and an effect size of 0.5 for the student population with disabilities.

The IMAS application will auto-calculate the sum total of dollars input for each of the specific student groups. If the sum total is less than or equal to the FY22 EBF allocation for the specific student group, the EBF Spending Plan will auto-submit for submission.

School districts serving at least one English Learner (EL) will also complete assurances related to Article 14C of the School Code, which stipulates allowable expenditures for English Learners. These assurances only apply to the EBF Spending Plan. A separate collection of the EL - Bilingual Service Plan takes place before each school year and must be separately reviewed by the Bilingual Parent Advisory Committee beginning with FY23.
